Administering Medicines to Students

7:270-AP Administrative Procedure - Dispensing Medication

Actor	Action
	Ask the child's physician, dentist, or other health care provider who has authority to prescribe medications if a medication, either prescription or non-prescription, must be administered during the school day. <i>Medications</i> includes an epinephrine auto-injector (<i>EpiPen</i> ®) and asthma inhaler medication.
	For a student with diabetes : The parent(s)/guardian(s) are responsible to share the health care provider's instructions. When the student is at school, the student's diabetes will be managed according to a diabetes care plan, if one exists, and not this Procedure. See Care of Students with Diabetes Act, 105 ILCS 5/10-22.21b, added by P.A. 96-1485.
Parents/Guardians	If so, ask the health care provider to complete a "School Medicine Authorization Form." This form must be completed and given to the school before the school will store or dispense any medication and before your child may possess asthma medication or an epinephrine auto-injector.
	If a student is on a medication indefinitely, the parent/guardian must file a new "School Medication Authorization Form" every year.
	Bring the medication to the school office. If the medicine is for asthma or is an epinephrine auto-injector, a student may keep possession of it for immediate use at the student's discretion: (1) while in school, (2) while at a school-sponsored activity, (3) while under the supervision of school personnel, or (4) before or after normal school activities, such as while in before-school or after-school care on school-operated property (105 ILCS 5/22-30, amended by P.A. 96-1460).
	For asthma inhalers, provide the prescription label. Bring other prescription medications to the school in the original package or appropriately labeled container. The container shall display:
	Student's name
	Prescription number
	Medication name and dosage
	Administration route and/or other direction
	Dates to be taken
	Licensed prescriber's name
	Pharmacy name, address, and phone number
	Bring non-prescription medications to school in the manufacturer's original

	container with the label indicating the ingredients and the student's name affixed.
	For each field trip, submit a written request to the Building Principal for the student to receive needed medication during the field trip.
	At the end of the treatment regime, remove any unused medication from the school.
School Office Personnel	Provide a copy of these procedures, as well as a "School Medication Authorization Form," to inquiring parents/guardians.
	Whenever a parent/guardian brings medication for a student to the office, summon the school nurse.
	If the school nurse is unavailable, accept the medication, provided the parent/guardian submits a completed "School Medication Authorization Form" and the medication is packaged in the appropriate container.
	Put the medication in the appropriate locked drawer or cabinet. Tell the school nurse about the medication as soon as possible.
School Nurse (certificated school nurse or non-certificated registered professional nurse, or licensed practical nurse)	Ensure that a parent/guardian who brings medication for his or her child has complied with the parent/guardian's responsibilities as described in this administrative procedure.
	In conjunction with the licensed prescriber and parent/guardian, identify circumstances, if any, in which the student may self-administer the medication and/or carry the medication. A student will be permitted to carry and self-administer medication for asthma or an epinephrine auto-injector.
	Store the medication in a locked drawer or cabinet. A student may keep possession of medication for asthma or an epinephrine auto-injector. Medications requiring refrigeration should be refrigerated in a secure area.
	Plan with the student the time(s) the student should come to the nurse's office to receive medications.
	Document each dose of the medication in the student's individual health record. Documentation shall include date, time, dosage, route, and the name and signature of the person administering the medication or supervising the student in self-administration.
	Assess effectiveness and side effects as required by the licensed prescriber. Provide written feedback to the licensed prescriber and the parent/guardian as requested by the licensed prescriber.
	Document whenever the medication is not administered as ordered along with the reasons.
	If the parent/guardian does not pick up the medication by the end of the school year, discard the medication in the presence of an administrator.
:270-AP	Supervise the use of these procedures.

Building Principal	Perform any duties described for school office personnel, as needed.
	Perform any duties described for school nurses, as needed, or delegate those duties to appropriate staff members/administrators. No staff member shall be required to administer medications to students, except school nurses, non-certificated registered professional nurses (RNs) or licensed practical nurses (LPNs), and administrators.
	Make arrangements, in conjunction with the parent/guardian, supervising teachers, and/or bus drivers for the student to receive needed medication while on a field trip. Unless these arrangements can be made, the student must forego the field trip.
	1. Obtain written request/permission for the administration of medication on the field trip from the parent/guardian of the student.
	 Identify a staff member supervising the field trip who will volunteer to administer medication to the student.
	 If self-administration has been requested, confirm that a determination has been made by the student's IEP team that the student may self- administer medication.
	4. Require that the staff member volunteering to administer the medication provides written documentation to the school nurse including the date and time the medication was provided, the dosage, and the circumstances, if relevant.
	5. Determine whether the student may attend the field trip. Administration of medication on field trips is at the discretion of P.A.E.C., except as provided in the student's IEP.
